Pupil Voice

Year 6

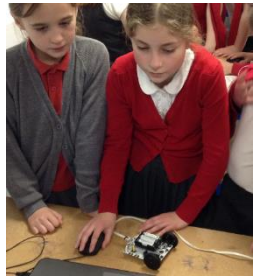
Intech Science Centre

I enjoyed the planetarium because I discovered there were planets I never knew existed!

When I went in the sound booth I got to scream as loud as I could.

The building I constructed out of lego did not fall when the earthquake machine hit. I beat it!

I loved building skyscraper out of lego!



I learned how to sign my name in sign language.

I learned that Venus is one of the coldest planets.

Best ever Year 6 visti!

I learned how to design code for a crumble bot. We had a crumble bot disco!

I learned how truly small we are in the universe because of the planetarium at Intech.

Using the crane to construct a building was great especially as we worked as a team (and wore hard hats).

Visiting all of the exhibits was amazing. I could even name all of the different types of Science – Biology, Physics and Chemistry.

I learned abot constellations and what they are called like the big bear!
