

Polar Bear's Weekly Newsletter

6.9.24

This week in Polar Bears...

It has been an absolute pleasure to welcome all of our new polar bears into school this week. They have settled very quickly and any tears when they say goodbye to you quickly stop once you have left.

We have been busy meeting key adults in our school and thinking about the school rules of 'ready, respectful, safe' and what these mean. On Thursday we went on our very own bear hunt around the school to find Polly who had gone for a walk over the summer holidays. We have loved exploring the classroom and garden and discovering all the resources and learning where they go.

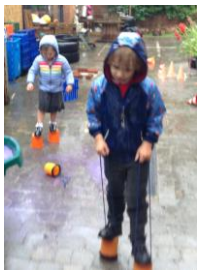

We are celebrating...

New relationships! We have begun to make lots of new friends and of course catch up with old ones. Some of us have already learned new skills such as walking on stilts!

Next week...

Please continue to come into the classroom in the mornings if that helps your child to settle. If your child is now happy to be left at the classroom door though that is great.

When children come in next week they will need to find their insect group sign which will tell them which activity they are doing. These activities are all about developing fine motor skills ready for writing.

How can you support our learning?

If possible, please send in a pair of wellies that can be left in school so we can still go outside even if it is raining. Talk to us about the lunch choices each day to help us feel confident about which option to choose.

There are lots of gaps on our family tree so if you have a family photo you could send in or email to the office that would be great. Have a fabulous weekend.
