

Polar Bear's Weekly Newsletter

16.9.24

This week in Polar Bears...

We have been reading the book The Colour Monster and thinking about our different feelings. We have talked about what makes us feel happy, sad and angry. We used our fine motor skills to cut felt and paper, to stick and to thread to make our own colour monsters. We have begun our phonics learning and have learned the sounds: s,a,t and p. Some of us are already putting these sounds together to read words! In maths we have been thinking about matching and sorting. We even paired up Mrs Webb's socks for her. In discovery time we are loving being outside making dens and shelters.

We are celebrating...

Our formal welcome to the school. Thank you to Reverend Chris and the church for our bibles. We enjoyed looking at them in the classroom.

Next week...

We will be thinking about our homes, who lives there and what kinds of objects we find in them. We will look at how homes were different in the past. Our focus book will be Goldilocks and we will start our learning by looking at the bear's house and the furniture in it.

We will be learning the sounds l, n, m, d in phonics and thinking about the numbers 1-3 in maths.

How can you support our learning?

As we move into autumn we would love some natural objects for our classroom. If you are out and about this weekend we would love: conkers, acorns, pine cones and anything else your child might like to collect. This will support our maths learning on sets and groups as well as counting.
