

Polar Bear's Weekly Newsletter

27.9.24

This week in Polar Bears...

We have had a mystery to solve this week! Someone ate Mrs Webb's breakfast and broke our chair. We became detectives and looked for clues to discover who it was. We shared some great ideas about what might have happened, some us even blamed our own grown-ups who had left the house early that morning without having breakfast! In phonics we have learned the second set of sounds and have been working really hard on forming our letters. We are beginning to be able to identify initial sounds in words which is helping us learn to spell. Maths has all been about subitising – recognising an amount without having to count. We are great at subitising three.

We are celebrating...

How well we are leaving our grown-ups in the morning. Most of us are now saying goodbye at the door and leaving our grown-ups outside. We solved the crime and celebrated with a shared breakfast of porridge,

Next week...

After school on Monday at 3.40pm there is a phonics presentation that will explain more about how we teach your children to read and write. The following Monday there will be a presentation about maths teaching.

In class we will be thinking about harvest and linking it to our RE learning about creation. We will be making bread and tasting it with some vegetable soup at Forest School.

How can you support our learning?

Lots of us are finding it tricky to undo buttons and zips when we get changed for PE. It would be great if you could practise this with us at home. Lots of our uniform does not have a name in or has someone else's name in (as it's from the pre-loved shop), please could check and put our name in for us. Have a great weekend.
