

Polar Bear's Weekly Newsletter

4.10.24

This week in Polar Bears...

We have been thinking about harvest and how this links to creation. We have thought about who God is and why he is so important to Christians. During forest school we thought about how we can care for our world and did some litter picking and made a bug hotel. In phonics we have now learned the sounds g, o, c,k and begun to look at the tricky word 'to.' We are working really hard on blending the sounds to read words and forming the letters correctly. In maths we have continued with subitising and how to count accurately when there are too many to subitise. Goldilocks has also sent us a card to say sorry and gave us a new chair!

We are celebrating...

Harvest festival by baking our own bread and tasting it with warm vegetable soup. We did a great job in the church with our performance of The Little Red Hen.

Next week...

After school on Monday at 3.40pm there is a maths presentation that will explain more about how we teach your children the fundamental maths skills they need.

In class we will begin to think about autumn and the changes this brings to the world around us. We will have the opportunity to investigate vegetables that are harvested in the autumn.

How can you support our learning?

We have been working on counting accurately by moving objects as we count them. This is an easy task for us to practice at home with you when doing everyday jobs such as tidying up, setting the table, helping to sort the washing, on a walk or at the playground. Have a great weekend.
