

Polar Bear's Weekly Newsletter

11.10.24

This week in Polar Bears...

We have been learning about autumn and the changes it brings to nature. We have looked at the trees, thought about what animals might be doing and how the weather changes. At forest school we enjoyed making cosy shelters for a badger, hedgehog and fox. We also collected some food for the squirrel to help him out over the winter months. We have loved strengthening our fine motor skills by using hammers to bang golf tees into pumpkins and print autumn trees with broccoli. In phonics we are almost at the end of learning all of our phase 2 sounds, this week we have learned ck, e, u and r. In maths we have been learning about the composition of the numbers 2, 3 and 4.

We are celebrating...

Our incredible talents! We have been holding our very shows and performing for our friends. We have singing a variety of songs including some Taylor Swift and the theme tune of Paw Patrol.

Next week...

We will continue to learn about autumn through the texts 'Tidy' and 'Leaf Man.' In phonics we will learn the sounds h, b, f and l.

In maths we will be building on our subitising skills and looking at how the amounts 3 and 4 can be arranged in different ways.

How can you support our learning?

Spend time with us taking about autumn and help us to notice the changes around us. We still have a collection of autumn treasures in our curiosity corner and it would be great to add to them if you find anything when out and about. Help us to notice print in the environment and point out the sounds to us. Have a great weekend.
