

Polar Bear's Weekly Newsletter

18.10.24

This week in Polar Bears...

We have been cleaning, building and writing! Lots of us have been building rockets and aeroplanes in the construction area outside. We have worked hard to collaborate with each other to make improvements. There has been a big clean up in the mud kitchen, we enjoyed using soapy water, cloths and paintbrushes to clean off the mud. It was great for our gross motor skills too! We have enjoyed writing and mark making in our discovery time too especially with notebooks. We have now finished learning all of our phase 2 sounds and will recap them next week before starting phase 3 after half term. In maths we have been learning about the number 4.

We are celebrating...

The beautiful season of autumn. We have enjoyed carving pumpkins and making pumpkin soup in the water tray. We have also used the beautiful leaves to make pictures and crowns.

Next week...

We will be learning about friendships through the story The Rainbow Fish. We will be using our fine motor skills to create our own rainbow fish too.

We will recap phase 2 in phonics with a focus on blending and continue to issue reading books.

In maths we will be learning about more than and less than.

How can you support our learning?

We have now been in school for 7 weeks and are very tired! An opportunity for a snuggle with a favourite film or book would be great. Talking to us using the words more than, greater than, less than and fewer than in real life contexts would also be really helpful. Thank you. Have a great weekend.
