

# Polar Bear's Weekly Newsletter

## 10.1.25

This week in Polar Bears...

I hope you all had a fantastic Christmas with family and friends and a very happy new year to you all. This week we have been fascinated by the weather, in particular the ice. We have enjoyed exploring it in different ways with pipettes, syringes and hammers! We took part in the great penguin rescue when they got stuck in the ice. This has linked in well with our text Lost and Found as we have been learning about the cold places in our world. Cosy Club has started this week which gives us a chance to practise our reading and writing in small groups. We have also quickly adapted to our new morning groups and tasks.

Phonics and Maths...

In phonics this week we have been revisiting the early phase 3 sounds of qu, ch, sh and th. We have been working hard at listening for the sounds in words so we can write them accurately.

In maths we have continued to look at different representations of the numbers to 5, including the numerals.

Next week...

Our meet and greet is on Monday, this will give you a chance to see what the children will be learning about this term, how the timetable has moved on and how you can support your child at home. There will also be a powerpoint photo presentation to show you what the children learned and explored last term.

We are also delighted to be welcoming Rachel Moody who is a third year student teacher. She will be working alongside us until April.

How can you support our learning?

Please continue to listen to us read and help us to learn our tricky words. Research tells us that children who practise regularly at home are more successful. Our PE sessions will be on a Thursday morning so please can we have our PE kits. Have a great weekend.
