

Polar Bear's Weekly Newsletter

9.5.25

This week in Polar Bears...

It might have only been a four day week but we have still done lots of learning. We enjoyed the story of 'Tadpole's Promise' even if the end was a shock! It inspired us to write some promises of our own ranging from promising to help at home to helping our friends. Through the book we have learned about metamorphosis in tadpoles and caterpillars and looked at how they are different to us when we were babies. In PE we enjoyed making up our own dance moves to re-tell the story of 'The Hungry Caterpillar'. Our cress seeds have grown and we enjoyed making cress sandwiches and then eating them. Most of us loved the cress!

Phonics and Maths...

We have been using our phonics to write our own versions of The Very Hungry Caterpillar including the hungry horse, the hungry unicorn and the hungry fox. We have also drawn and labelled pictures from the story. In maths we have been looking at different representations of the number 6 and have begun to use 10 frames.

Next week...

We will be learning more about insects and mini beasts. We will be looking at which insects we can find in our school grounds and the different habitats they live in. We will also be learning different ways to classify insects.

We will also be learning about VE Day and preparing for our tea party.

How can you support our learning?

In PE this week we loved our warm up dance to Dance Monkey. I have included the link as lots of us wanted to share it with our families. If you are able to please keep reading with us at home, it really helps us to make progress.
