

Polar Bear's Weekly Newsletter

6.6.25

This week in Polar Bears...

We had our first trip to the stadium this week and it was a bit soggy! Fortunately when the heaviest rain came down we were able to shelter in the reception area. We did manage to walk around the track and practise staying in our lanes, hopefully next week it will be sunny and we can run. We have been learning about how to keep ourselves fit and healthy. We have talked about different types of exercise and why it is important. We have also learned about different food types and which ones we should eat the most of. Lots of healthy dishes have been cooked in the mud kitchen – the children said they were healthy because they had added vegetables and salad (leaves). We ended the week by making our own fruit skewers to enjoy at forest school. We cut up the fruit all by ourselves.

Phonics and Maths...

We have been using our phonics to write a solution for the little green donkey, who was in trouble with his mum for only ever eating grass. We were quite creative with our ideas. In maths we have learning about the position of numbers on a number track.

Next week...

We will be focusing on our different senses and how they help us make sense of our world. We will also be creating our own sensory trail.

How can you support our learning?

If you are able to support our stadium visits by walking down and back with us that would be great. Please could you ensure we have a raincoat in school every day just in case. We have been doing a new morning dance and the children have asked me to send you the link!
